**Editorial**

Oral Medicine: Behcet's disease: A study done at King Hussein Medical Center, Amman – Jordan —

Lamees Abasi, Hytham Farah Al-Rabadi, Eyas Sam'an Alrabadi, Hind Fahed Nsour

Identification of relationship between oral disorders & hemodynamic parameters —

Asif Ahmed, Khashif Ikram, Hina Masood, Muzna Urooj

Oral & Maxillofacial Surgery: Effectiveness of arthrocentesis in treatment of temporomandibular joint disorders: A double blind, randomised controlled trial — Mohsin Fazal,

Syed Guizar Ali Bukhari, Owais Khalid Durrani

Assessment of cervical spine injuries associated with maxillofacial trauma — Suneel Kumar Punjabi,

Abdul Rauf Memon, Syed Mustansir Hussain Zaidi, Priya

The frequency of common histological types of oral and maxillofacial malignancies —

Fahad Qiam, Muslim Khan, Qiam ud Din

Assessing knowledge of medical and dental personnel about oral cancer —

Fizza Tahir, Fatima Haifeez, Hamza Ahmad Sahaf, Ambreen Shabir, Hira Butt

Co-morbidities related to dental extractions — Nayab Mangi, Maham Shah, Shagufta Channa,

Sana Siddique

Dental practitioner’s choice of local anesthesia technique for mandibular molar anesthesia —

M Shairaz Sadiq, Shafa Ahmed, Samir R Qazi

Effect of submucosal injection of dexamethasone on post-operative swelling and trismus following impacted mandibular third molar surgery — Bibi Khalida, Mohsin Fazal,

Sidra Tul Muntaha, Kamran Khan

Oral Pathology: Histopathological variants of ameloblastoma — A study — Muslim Khan,

Samrina Mohammad, Sahar Shakeel

Diagnostic accuracy of clinico-radiological and histological examination in chronic peri-apical pathologies — Syed Umer Farooq, Muhammad Raza, Syed Muhammad Awais,

Nuzhat Sultan Khattak, Ihsan Ullaha, Sana Ahmed

Histopathological types of odontogenic keratocyst — A study — Samrina Mohammad, Muslim Khan,

Nadia Mansoor

Spindle cell tumor of neural origin manifesting in oral cavity: A case report with review — Hira Salam,

Soofia Jamil, Saba Hassan Shamim, Shaheen Ahmed

Orthodontics: Reliability of orthopantomogram in determination of gonial angle — Tayyaba Bibi,

Ghulam Rasool, M Haseebullah Khan

Relationship between maxillary and mandibular effective lengths and dental crowding in Class II malocclusions — Adil Khan, Ulfat Bashir, Hanna Jalil, Umar Hussain

The frequency of sella turcica bridging in orthodontic patients and its association with sagittal and vertical malocclusion groups — Nazir Ahmad, Wasif Ali Shah, Sohrab Shaheed

Clarity versus inspire ceramic bracket: In vitro comparison of shear bond strength — Saif Ur Rehman,

Muhammad Azeem, Muhammad Burhan Hayat, Muhammad Imran Khan, Waheed Ul Hamid

Quality assessment of lateral cephalometric radiographs — Shakeel Qutub Khan, Amtul Hai Sobia,

Hasan Mehdi, Babur Ashraf

Hold away soft tissue norms in a sample of Peshawar population — Saira Bano, Ahsan Mahmood Shah,

Ummar Hussain, Muhammad Saood, Syed Suleman Shah

Correlation between course interest, self-direction and assessment scores for determining motivation of medical and dental students in Pakistan — Naveed Mazhar Bhatti, Tabassum Naveed

Effectiveness of text message instructions on oral hygiene for orthodontic patients — Javed Iqbal,

Rabia Awan, Akhtar Parvez, Arfan ul Haq Zahid, Alizeh Abbas Gardezi, Sameen Irfan

Maxillary buccally displaced canines: a new insight into an old problem — Muhammad Azeem,

Saif Ur Rehman, Muhammad Burhan Hayat

Subscription (annual): Inland Rs 2000. – Institutions Rs 3500. – Overseas US $ 300

EDITORIAL

Man is, in his imperfect way, at odds with the world around him. 37 years ago, when we started editing and publishing ‘Pakistan Oral & Dental Journal, only three medical Journals namely ‘Pakistan Armed Forces Medical Journal’, Journal of Pakistan Medical Association and Journal of Pakistan Medical Research Council were being published.

In 1981 when the publication of Pakistan Oral & Dental Journal was started, there was no infrastructure, finances were very limited and there were no authors. Too many hurdles had to be crossed. In the word of poet Muneer Niazi;

اکھر اور ہری کا سادہت تیار نہیں میں کو
میں اکھر ہری کے پر آر آر ٹو میں نے دیکھا

(I crossed a river with difficulty and I had hardly travelled a short distance when I found another river flowing in front of me)

The truth is that people had to pass through opposite substance. When we wanted to see space, we fought gravity and travelled to the moon. When we wanted fish, we built boats.

First issue of the Journal consisted of only 32 pages and was printed on small sized thin paper. Circulation was limited. Now Journal has large circulation and there are at least 40 articles (original research articles, review papers and very interesting and rare case reports). There are papers from foreign countries. This Journal is now also published online (Electronic publishing: www.podj.com.pk). It was a bi-annual publication now it is quarterly.

We are living in rapidly changing world. We have to keep pace with the moving time and for that we have to pass through opposite. Poet philosopher Allama Iqbal has very nicely described this phenomenon;

سہاروں سے سکھیں چھان اور چھین
اگیں مشک کے اسٹریل اور چھین

(There is vast universe beyond the visible stars, to get there, we have to put in lot of efforts and have to cross many hurdles).

INFORMATION FOR AUTHORS

Pakistan Oral & Dental Journal is a peer-review journal published quarterly a year (w.e.f. 2014 quarterly). It is bringing out 2 editions. One, usual print edition which is in your hand, and the online edition: www.podj.com.pk. The journal accepts original research reports, reviews, case reports, short scientific communications, letters to the editor and commentaries.

Manuscript submission: Manuscripts, should be prepared following uniform requirements for manuscripts submitted to biomedical journals as approved by the International Committee of Medical Journal Editors (www.icmje.org) (two hard copies and a CD copy) must be double-spaced and in English. Both British and American spellings are acceptable. The manuscript must be accompanied by a cover letter stating that the submitted work has not been published before and is not being considered for publication elsewhere and that it has been approved by all authors. The cover letter should also state that the particulars of authors namely qualifications, designations, addresses are accurate. This must also include the full postal address, telephone, fax, and e-mail of the first author. Acknowledgement of receipt is made by e-mail. Authors from foreign countries may submit their manuscripts electronically to the editor’s email. In this case, the manuscript must be sent as a Microsoft Word attachment, with tables and references included as part of the Word text. Graphics have to be attached as jpg files.

Publication Charges: An article submitted for publication in this journal undergoes technical review, peer review, editorial review and then if accepted is sent for pre-publication proof checking and for printing and electronic publishing. Minimum publication charges for a manuscript are Rs 8500 upto 4 printed pages in the journal (in case of overseas US $165). Rs 1000/- extra will be payable for each additional page (in case of overseas US $20). Charges for photographs, films, and illustrations are additional. Article should accompany the pay order for the said amount drawn in favor of “Pakistan oral and Dental Journal”. If the article is not approved, Rs 2500 will be deducted as service charges and balance amount will be refunded. For clarification call on 051-2611187.

Plagiarism: Manuscripts are screened for plagiarism using special software and those found guilty or involved in publication misconduct are liable to be black listed.

Disclosure: Regarding source of funding and conflict of interest if any besides approval of the study from respective ethics committee/institution should be taken care of.

Conflict of Interest: Conflict of interest refers to a situation that has the potential to undermine the impartiality of an author because of the possibility of a clash between the author’s self-interest and professional interest or public interest. All authors are required to disclose any financial and personal relationships with other people or organizations that could inappropriately influence (bias) their work. Examples of potential conflicts of interest include employment, consultancies, stock ownership, honoraria, paid expert testimony, patent applications, and grants/funding. Acknowledging conflict of interest means that the reviewers and readers are made aware of the competing interests.

Manuscript preparation: Research articles are normally divided into following sections: Title page. Abstract, Introduction, Methodology, Results, Discussion, Acknowledgement (if any) and References. The editor reserves the right to edit all accepted manuscripts for clarity, conciseness and scientific style.

Methodology: Describe precisely how the study was carried out. Provide information about the sample of subjects, patients, materials or whatever was being studied, design of study and how it was executed. Include the method(s) of analysis of data that were used, and where relevant, mention the reliability of the methods of measurement.

Results: Describe data relevant to the objective(s)/hypothesis of the study in the form of text, tables and/or figures. The text summarizes the most important data presented in the tables/figures. Do not repeat all the contents of the tables/figures. Also describe the results of analysis of information (statistical tests).

Discussion: Illustrate the main findings of the study and how the findings compare with present and past knowledge. Describe possible reasons for any disagreement, and the author(s) interpretation of the results of the study. It may also include discussion of the materials and methods employed. Avoid repetition of the results. Mention implications of your findings, and any limitations of the study. Include any recommendations for future research based on your findings.

Conclusion(s): Number statement of your main findings. Conclusion(s) should relate directly to the aims and objectives of the study

References: References should be numbered consecutively in the order in which they appear in the text. Identify references in texts, tables, and legends by Arabic numerals in superscript. The journal follows the Vancouver (now known as ICMJE) style of referencing. Avoid reference to “unpublished observations”, “personal communications” and papers not yet accepted for publication.

Tables: Should be numbered consecutively in Arabic numerals (e.g., Table 1, Table 2, etc.), with each table typed on a separate page and with due attention to the proportions of the printed page. Do not document same data in tables and graphics.

Illustrations: All graphs, drawings, and photographs are labeled as figures and should be sequentially numbered in Arabic numerals (e.g., Fig 1, Fig 2, etc.). Each figure must be on a separate page and each must have a caption. In case of photographs, write the figure number and caption at the back of each photograph with top side indicated by an arrow sign. All captions, with necessary references should also be typed together on a separate page.

Correspondence: All correspondence must be addressed to Professor Ahmad Iqbal, Editor, Pakistan Oral & Dental Journal, 19, Street 63, F-7/3, Islamabad, Pakistan. E-mail: driqbal7@gmail.com website: www. podj.com.pk
**Pedodontics:** Knowledge, attitude and awareness of parents regarding the importance of barrier techniques (use of gloves, masks & goggles) by the pediatric dentists at Prince Hashem Military Hospital, Jordan — Basma K AL Sakarna, Rana A Omor, Reham A Hijazeen, Taghreed F Jaradat, Ruba K ALqaisi

**Periodontics:** Diabetic patients and periodontitis: A study — Geti Fatima, Muhammad Jalil Akhtar, Nuzhat Naveed, Mahmood Ahmad, Mariam Tariq, Abdul Rahman Khawaja
Influence of socio-cultural variables on periodontal conditions in pregnant women — Mehwish Ghazal, Syed Jaffar Abbas Zaidi, Sania Riaz, Waqas Ahmed Farooqi

**Medical Education:** Reliability of a Direct Observational Tool to assess Clinical Reasoning (DOT-CR) — Tabassum Naveed, Naveed Mazhar Bhatti

**Community Dentistry:** Dental trauma leading to periodontally compromised teeth of young boys in Lahore — Bilal Abdul Qayum Mirza, Fareed Ahmad, Sabahat Javaid Butt, Muhammad Qasim Saeed
Dental Caries Status among public and private school children in Hyderabad District — Sindh — Wardah Ahmed, Faryal Manzoor, Umer Khayyam

**Restorative Dentistry:** Oral health status of special olympics athletes seen at Islamabad Dental Hospital — Saqib Arshad Khan, Saima Azam, Beenish Qureshi
Furcal perforation repair: MTA versus calcium hydroxide — Hanna Abdul Majeed, Sobia Masood Tirmazi, Nazish Iqbal
Revascularization in an avulsed permanent tooth with prolonged extra oral dry time—an unusual finding — Shazia Naz, Ayesha Bashir, Shahida Naseem Rame, Abdul Rab
Pakistani dentists attitude towards chairside screening of medical conditions — Afshan Amjad Ali, Muhammad Amin, Syed Jaffar Abbas Zaidi, Qaiser Ali Baig
Impact of problem-based learning on knowledge acquisition among dentistry students — Fasih Moin Kazi, Zubair Ahmed Abbasi, Erum Rashid, Syed Adeel Ahmed
Correlation between dental caries and body mass index amongst 19-24 years old university students, Karachi — Talha M Siddiqui, Aisha Wali, JA Qazi, Ifrah Razzaque, Amna Bibi, Faryal Jabbar
An assessment of the retention of anterior composite restorations — A 5 years clinical study — Saira Yousuf Dar, M Bader Munir, Salman Rashid
Radiographic evaluation of three obturation techniques in restoring artificially created resorptive defects — AL Malwi Ahmed Abdullah A, Alsaeed Ali Yahye M, Adel Al Obaid, Suheel Manzoor Baba
Flexural strength evaluation of tetric evoceram bulk-fill composite in comparison with traditional composites — Ali A Razooki Al-Shekhli, Isra'a Al Aubi, Abdul Rahman Ayman
Prevalence of musculoskeletal disorders and associated risk factors: A survey conducted among dentists in Lahore — Sara Zahoor, Saroosh Ehsan, Adeela Rafique, Muhammad Arslan Tayyab, Muhammad Fayyaz Nafees, Muhammad Abdul Basit, Muhammad Abbas Jamil
Radiographic technical quality of root canal fillings performed by undergraduate dental students — Ifthikhar Akbar, Fayyaz Alam, Muhammad Raza

**Prosthodontics:** Type of partially edentulous mandibular arches seen among patients at the dental clinics of RAK college of dental sciences — Jodat Askari, Maha Saeed, Feroze Ali Kalhoro, Mansoor Ahmed Channa, Kelash Kumar
Professional risks by autopolymerised acrylic resins amongst dentists — Hina Memon, Muhammad Rizwan Memon, Aamir Mahmood Butt, Erum Naz
The reliability of foveae palatinae in determining the location of vibrating line in edentulous patients — Nageen Akhtar, Sundas Tanveer, Muhammad Aamir Ghafoor Chaudhary, Salman Ahmad

**Dental Materials:** Evaluation of the dimensional stability of alginate impression materials immersed in various disinfectant solutions — Shahreen Zahid, Samie Qadir, Nida Zehra Bano, Saba Waqar Qureshi, Muhammad Kaleem
A comparison of alginate impression products in terms of stiffness based on Young’s modulus — Saba Waqar Qureshi, Shahreen Zahid, Samie Qadir, Muhammad Kaleem
Convocation of Khyber College of Dentistry
